

Dear students,

to make it a little bit easier for you to start with biochemistry internships at the University of Cologne, we offer the course "Refresh Lab Working".

During this course you can train practice handling with the existing laboratory equipment. In the internships that take place later, the knowledge about handling of the lab equipment (balance, pipettes, pH-meter, etc.) is assumed.

Essential information on the preparation of solutions/buffers will also be discussed.

The course takes place in the period from 07.10. to 11.10.24 at the Institute of Biochemistry. The start will be on October 7th, 2024 at 1:00 p.m. with a safety briefing, room 170. Attendance is a requirement for attending this course.

The working hours are always from 10:00 a.m. to 5:30 p.m.. On Wednesday we start at 11:00 a.m.. If you are interested, please register via our e-learning platform ILIAS <https://www.ilias.uni-koeln.de/> to the course „WS24/25 Refresh Lab Working“ using the password „RLW-2024-WS “.

Best regards
Peter Poeppel
